

Household Tips-Cleaning the Bathroom

February 27, 2009 by [cutepea](#)

- * Loosen dirt before cleaning the bathroom by filling the tub with the hottest water possible. The steam will loosen the dirt faster.
- * Before hanging shower curtains, soak them in a salt water solution to prevent mildew
- * Wash mildewed shower curtains in hot soapy water, rub with lemon juice, and let them dry in the sun.
- * Use a piece of *very fine* plain steel wool to remove film from the shower stall.
- * Dip a stiff brush in a kerosene and warm water solution to clean the bath mat.
- * Insert a sponge into the leg of an old nylon stocking and knot the end. Use it to scrub sinks, bathtub, tile, etc.
- * Rub glass shower doors with a white vinegar dampened sponge to remove soap residue.
- * Use a typewriter eraser to clean spaces between bathroom tiles.
- * Dip a cloth in kerosene or rubbing alcohol to remove scum and spots from your bathroom fixtures.
- * Soak a plastic shower head in a hot vinegar and water mixture to unclog it.
